Experience

Hippopitch [🔗](#), Full-Stack Web Developer

Remote Feb 2024 – Oct 2025

- Led the development of a web platform connecting entrepreneurs and investors through interactive pitch sessions.
- Reactive user interfaces built using Vanilla JavaScript, SCSS, and Bootstrap.
- Implemented authentication, profile management, and media upload features.
- Managed the back-end architecture using Firebase Cloud Functions and integrated Algolia for efficient real-time search and indexing.
- Collaborated directly with the founder to refine the UI / UX design, optimize Firebase queries, and ensure smooth deployments.
- Contributed to feature planning, bug fixing, and production maintenance, ensuring long-term scalability and reliability.

Education

HSC Govt. Islamia Science College, Computer Science

Aug 2024 – In progress

FSC School of Excellence, Pre-Medical

Aug 2022 – May 2024

Projects

Projectarium [🔗](#)

- Built a platform for developers to share and discover projects with detailed descriptions and tech stacks.
- Implemented SSO authentication using Google and GitHub with NextAuth.
- Used Prisma ORM with MongoDB for robust database management.
- Designed a responsive user interface with Tailwind CSS and Next.js 14.
- **Tools used:** Next.js, TypeScript, Tailwind CSS, Prisma, MongoDB, NextAuth

Belly Brains [🔗](#)

- Built as a learning-focused project, implementing features from scratch using React, Redux Toolkit, Firebase, and Styled Components.
- Created user authentication with Firebase and integrated Firestore for state persistence.
- Managed global state using Redux Toolkit, applied React performance optimizations (useMemo, useCallback).
- Added UI features such as light/dark mode toggle, image lazy loading, page lazy loading, and responsive design.
- **Tools used:** React, Redux Toolkit, Firebase, Styled Components, Framer Motion

Technologies

Languages: HTML, CSS Javascript, Typescript

Frontend: React, Next.js, Tailwind CSS, Shadcn UI, Bootstrap, SCSS

Backend: Node.js, Firebase, Prisma, MongoDB

Tools & Platforms: Git, GitHub, Vercel, Netlify, NPM, PNPM, Figma, VS Code
